#### PAKISTAN INDUSTRIAL FINANCE CORPORATION

First Annual General Meeting, 26th August 1950

Karachi, the 26th August 1950

First Annual Report of the Board of Directors of the Pakistan Industrial Finance Corporation for the year ended 30th June 1950, under section 36 (3) of the Pakistan Industrial Finance Corporation Act.

#### ANNUAL ACCOUNTS

The Board of Directors present herewith the Accounts for the year ended 30th June 1950, together with their report on the working of the Corporation during that period.

(1) After payment of expenses of administration and making provision for taxation and sundry liabilities, the net profit amounts to	Rs. as. p.	
		31,778 12 7
(2) Proposed to be transferred to the Reserve Fund to be established in the terms of Section 33 of the Pakistan Industrial Finance Corporation Act	Rs. 30,000 0 0	
(3) To be carried over to the next year's accounts	Rs. 1,778 12 7	

31,778 12 7

The Central Government, in pursuance of Section 5 of the Pakistan Industrial Finance Corporation Act, have guaranteed a dividend of 2½% per annum on the share capital. It is proposed to call upon the Government to implement the guaranteed dividend.

The accounts submitted are the first but not complete year's accounts on the June to June basis. They cover the period from the 15th July 1949 to the 30th June 1950. The Pakistan Industrial Finance Corporation Act (I of 1949), under which the Corporation has been established, was passed by the Pakistan Constituent Assembly (Legislature) and received the assent of the Governor-General on the 28th February 1949. It however came into force on the 15th July 1949, the date fixed by the Central Government in pursuance of Clause 1 (3) of the Act. The Managing Director joined his appointment on the 10th September 1949, and the Directors (with one exception) were appointed by the Central Government on the 13th September 1949—one Director having been appointed on the 23rd November 1949. The Board of Directors met for the first time on the 27th September 1949.

A nucleus staff was appointed provisionally in May 1949 to carry out preliminary work regarding the establishment of the Corporation and the issue of shares for public subscription. The list of shares was opened on the 15th July and closed on the 21st July 1949. The response from the public was gratifying. The shares were over subscribed by Rs. 33,90,000. The Board made allotment of shares in accordance with the provisions of the Act and the General Regulations on the subject. Simultaneously with the issuing of the share list, the Central Government issued guarantee in terms of Section 5 of the Act for the payment of the annual dividend at a minimum rate of 2½%, free of income tax. The shares were declared to be Trustee Securities and Approved Securities.

We take this opportunity of thanking the Central Government (Ministry of Finance), the State Bank of Pakistan and other Government Departments for their assistance. In order to help us tide over the transitory period, the Government (Ministry of Finance) very kindly agreed to finance the preliminary expenses in connection with the establishment of our office, subject to recovery from the Corporation. All the expenditure incurred between May and 5th December 1949 on salaries, travelling etc. allowances and fees of Directors for attending meetings of the Board etc., stationery, printing and publicity charges etc., was met under that arrangement. The State Bank of Pakistan helped the Corporation particularly in connection with that issue of the share capital. Mr. Abdul Qadir, the then Acting Governor of the Bank, took personal interest in the matter. The Principal Information Officer, the Director of Advertising, Films and Publications and the Director of News Radio Pakistan, assisted us in our publicity campaign.

*Constitution and Functions of this Corporation.*—As there appears to be some confusion and misunderstanding in the mind of the public it seems desirable to state briefly the constitution of the Corporation, the business which, and the parties with whom, it is authorised to transact and the method and procedure of its transactions.

This Corporation has its head office in Karachi. A office is being opened at Chittagong (East Pakistan). Office premises have been obtained through the Government of East Pakistan and the staff is being recruited.

The authorised capital of the Corporation is Rs. 3 crores divided into 60,000 fully paid up shares of Rs. 500 each. In the first instance, however, only 40,000 shares were issued, the Central Government subscribing for 20,400 shares and 19,600 shares having been reserved for public subscription. The shares are now being quoted at Rs. 517-8-0 each.

The Management of the Corporation is entrusted to a Board of 9 Directors, including the Managing Director: 5 nominated by the Central Government and 3 by the share-holders, the Managing Director being a whole time officer appointed by the Government.

There is an Executive Committee consisting of three members *i.e.*, the Managing Director (who is the Chairman of the Committee), a Director elected by the nominated Directors and a Director elected by the elected Directors.

There is a Technical Advisory Committee to give advice on the schemes submitted to the Corporation for financial assistance or on any point that may be referred to the Committee by the Board.

In addition to this Committee, the Corporation may appoint any other advisory committee to assist it in the efficient discharge of its functions.

The Board, in discharging its functions, is required to act on commercial considerations, but with due regard to the interests of industry, commerce and the public interest generally. In the discharge of its functions, the Board is guided by such instructions on question of policy as may be given to it by the Central Government. Apart from the question of policy, the Corporation is run by an independent management of its own.

*The business which and the parties with whom the Corporation may transact.*—The Corporation has been established for the purpose of making medium and long term credits more readily available to industrial concerns in Pakistan, namely, any public limited company or co-operative society incorporated by an Act of the Legislature or under any law for the time being in force and registered in Pakistan and engaged in the manufacture or processing of goods or in mining or in the generation or distribution of electricity or any other form of power.

In terms of Clause 24 of the Act, the Corporation is authorised to transact the following kinds of business:—

- (a) Guaranteeing loans raised by industrial concerns which are repayable within a period not exceeding 20 years and are floated in the open market.
- (b) Underwriting the issue of stock, shares, bonds or debentures by industrial concerns.
- (c) Granting loans to or subscribing to debentures to industrial concerns, repayable within a period not exceeding 20 years.

The Act also provides that no accommodation shall be given of the type referred to in (a) or (c) above unless it is secured by a sufficient pledge, mortgage, hypothecation or assignment of such property, movable or immovable, and to such extent as may be prescribed. This means that the Corporation is authorised to grant advances only against the security of tangible assets.

In the present circumstances, the Corporation does not undertake underwriting commitments. It would consider underwriting the issue of shares or debentures only when it is reasonably satisfied that there is likely to be an adequate response from the public and the market. For the same reason, the Corporation does not consider it advisable to guarantee loans floated at present in the market.

The assistance granted by the Corporation is therefore mainly limited at present to the forms of loans and advances against tangible assets.

*Criticism of the Corporation.*—This Corporation has been subjected to criticism directed generally against the aid being restricted to public limited companies and co-operative societies, rigidity of the conditions of loan and rate of interest, etc. It is difficult to deal with general and vague accusations. The Corporation always welcomes discussion with a *bona fide* party any points of doubt assailing its mind relating to the working of this Corporation. Indeed, we are glad to record that those who came forward for such discussion were generally satisfied with the result.

After all is said and done, it has to be remembered that the Corporation has been established under an Act of Legislature and must follow the provisions of that Act. Under it, the Corporation is authorised to extend accommodation only to public limited companies or co-operative societies incorporated in Pakistan.

Furthermore, the Corporation is required to act on commercial considerations and is authorised to grant advances only against the security of tangible assets. It is not considered advisable to throw precaution to the wind and distribute money indiscriminately as our critics would have us do. Our conditions must be business-like so as to prove helpful to the industry on the one hand and safeguard our money on the other. All our terms and conditions follow these two-fold considerations and cannot be regarded unduly harsh or unfair to the borrowing party. The Corporation must also satisfy itself about all aspects of schemes it should be not only technically feasible, but also financially sound.

*Loans Sanctioned.*—The total number of applications for loan, received upto the 30th June 1950, was 92. Out of these 62 were not qualified to receive assistance under the Act.

The first application for loan was considered by the Board at its third meeting on November 30th, 1949. Since then the Board has met five times or, in all, eight times and sanctioned during the seven months upto the 30th June 1950, loans of an aggregate sum of Rs. 69,50,000. All these sums have not been paid actually. The discrepancy in the amount of accommodation sanctioned and that made available to the borrowing concerns is to a large extent due to certain necessary formalities being completed. In one case, the applicant firm did not accept the conditions attached to the grant of loan. In certain cases the borrowing concerns prefer to obtain their requirements in instalments so as to coincide with the maturity of their commitments for which assistance is sought from this Corporation. This enables them to save interest charges. In other cases, industrial concerns, after obtaining the requisite sanction from this Corporation, postpone receiving payment until it becomes absolutely necessary. These are the main reasons for the delay in the payment of the entire amount sanctioned as loan.

Fifteen applications received from eligible concerns by the end of June 1950, are still under investigation.

*Resources of the Corporation.*—The total amount of loan (Rs. 69,50,000) sanctioned up to the 30th June 1950, was well within the resources of the Corporation which are made up of the present paid up capital of Rs. 2 crores. Under Section 22 of the Act, the Corporation is authorised to issue bonds to the extent of five times the amount of its paid-up capital and reserves. As the authorised share capital of the Corporation is Rs. 3 crores, on the assumption that a reserve of a like amount is built up, the potential borrowing capacity of the Corporation is Rs. 30 crores.

Under Section 23 of the Act, the Corporation can also accept deposits from the public but it is not proposed to resort to this until the Corporation is in need of more capital.

*General.*—The field of Industrial finance in this country is entirely new and we have to tread with caution to avoid false steps. The experience of the assistance given by the Government, Central as well as Provincial, to industries cannot at this stage be regarded as true index. There is a proposal that this Corporation should accept the transfer of loans advanced by the Government to industrial concerns. The proposal has been accepted in principle but each case will be considered on merits.

MAHOMEDALI HABIB,  
Chairman of the Board.
