17th December 1963

1163. Delmar Chemicals Limited (Canada).—Process for the preparation of imidazole derivatives. (20th December 1962).

1163. Ernst Jordan (West Germany).—Process and apparatus for producing helical locking washers with internal teeth. (29th October 1963).

1163. Pristol-Banyu Research Institute, Ltd. (Japan).—Chemical Process.

1163. Harold F. Silver and Silver Corporation (U.S.A.).—Solvent Extraction process and apparatus therefor.

18th December 1963

1163. Shell Internationale Research Maatschappij N.V. (Netherlands).—Novel insecticidal compounds and compositions.

1185|63. Lowe & Rodin (U.K.).—Improvements relating to building construction. (29th December 1962).

1186|63. American Cyanamid Company (U.S.A.).—Improvements relating to stable liquid formulations for tetracycline.

1187|63. May & Baker Limited (U.K.).—Process for the preparation of steroid derivatives and pharmaceutical compositions containing them. (31st December 1962).

19th December 1963

1188|63. Ayerst, McKenna & Harrison, Limited (Canada).—Alicyclic diamenes.

1189|63. Universal Oil Products Company (U.S.A.).—Process for preparing olefinic hydrocarbons.

1190|63. Continental Oil Company (U.S.A.).—Method for preparing trialkylaluminum compounds.

1191|63. Owens-Corning Fiberglas Corporation (U.S.A.).—Belts and other glass fiberelastomeric structures and method of manufacture.

21st December 1963

1192|63. G. B. C. Corporation (U.S.A.).—Granulated bituminous concrete material and methods of manufacturing and using same.

1193|63. Boehringer Ingelheim G.m.b.H. (West Germany).—Chemical compounds.

APPLICATIONS ACCEPTED

Notice is hereby given that all persons interested in opposing the grant of patents on any of the applications referred to below may at any time within four months of the date of *Gazette of Pakistan*, give notice at the Patent Office in the Prescribed Form No. 6 of the Patents and Designs Rules, 1933.

The six-figure numbers shown in the right hand side are those given to application on acceptance of the complete specifications and under which the specifications will be printed and all subsequent proceedings will be taken.

Printed copies of specifications are available for sale at the old rate of Re. 1 per copy (postage extra) direct from the Manager of Publications, Central Publications Branch, Pakistan Secretariat, Block No.

44, Karachi. Printed Patent specifications beginning with No. 111711 will however, be sold at Rs. 3.00 per copy (postage extra, if sent out of Pakistan). Requisitions for the supply of printed specifications should be accompanied by the number of the specifications.

If required, typed copies of the specifications which are open to public inspection, can be supplied by the Patent Office on payment of the prescribed charges which may be ascertained on application to the Office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

277/62. Sandoz Ltd. (Switzerland).—Improvements in or relating to thiaxanthene derivatives. (27th March 1961). 113368.

A process for producing thiaxanthene derivatives, characterized in that a thiaxanthenol derivative is treated with an agent for splitting off water.

294/62. Sandoz Ltd. (Switzerland).—Improvements in or relating to aromatic sulphonamides. (30th March 1961). 113369.

3-Sulphamyl-4-chloro-benzoyl chloride is refluxed with tetrahydrofurfuryl alcohol for the production of 3-sulphamyl-4-chlorobenzoic acid tetrahydrofurfuryl ester.

295/62. Sandoz Ltd. (Switzerland).—Improvements in or relating to 2,6-dialkylbenzoic acid derivatives. (30th March 1961). 113370.

A mixture of O,O' dimethylbenzoyl chloride and 2-(N-methyl-pyrrolidyl-2')-ethanol-hydrochloride is heated in an oil bath for the production of O,O' dimethylbenzoic-acid-(N-methyl-pyrrolidyl-2')-ethyl ester.

390/62. Merck & Co. Inc., (U.S.A.).—Vitamin Intermediates. 113371.

A process for the preparation of a 4-methyl-5-hydroxy-carboxy oxazole which comprises reacting a compound from the group consisting of esters of N-formyl- α -alaninate and enol ether derivatives thereof with a dehydrating agent.

559/62. Allied Chemical Corporation. (U.S.A.).—Improvements in vat dye composition. 113372.

A vat dye composition containing a vat dye in the form of finely divided solid particles in an aqueous medium and at least 1 part per 100 parts by weight of vat dye solids of a water soluble 1,1,4,4-tetraalkylbutyne-1,4-diol.

563/62. Standard Telephones and Cables Limited. (U.K.).—Angle indicator. (1st September 1961). 113373.

An angle indicator including a plurality of indicator arms, means to detect, the magnitude of an angle to be indicated, means to cause nearest of said arms to indicate the position defining the magnitude of the angle and means to indicate the said arm.

565/62. Standard Telephones and Cables Limited. (U.K.).—Radio direction finding system. (30th August 1961). 113374.

A radio direction finding system including antenna system to receive signals at successive points on a circumferential path second antenna system and signal combining circuit, frequency shift circuit, amplitude modulation detector circuits to connecting different

circuits and means to compare phase of the signal from the frequency modulation detector of references signal.

576/62. Ortho Pharmaceutical Corporation. (U.S.).—Spermicidal composition.

A spermicidal cream containing a compound 5-chloro-4-phenyl-1, 2-dithiol-3-one.

582/62. Snia Viscosa Societa' Nazionale Applicazioni Viscosa, S.p.A. (Italy).—P for the oxidation in liquid phase of substituted aromatic compounds.

(Patent of Addition to No. 488/61-Sl. No. 11)

A process for the oxidation of aromatic hydrocarbons comprising aliphatic side-chains with oxygen containing it consists in that the oxidation is carried out in the presence of catalyst substantially insoluble in the hydrocarbon to be oxidized, constituted by cobalt oxide prepared by dry method and containing an oxygen percentage higher than that corresponding to the formula Co_2O_3 .

729/62. International Salt Company (U.S.A.).—Method of Bulk Salt.

A solid crystalline sodium chloride of normal density having at least a partial coating of a soluble complex iron cyanide in an amount not more than about 0.05% by weight.

827/62. Mian Mohammad Mukhtar (Pakistan).—Nuclear Radiation Survey Meter.

Comprising a detector, the output of which is connected to trigger a neon bulb connected in RC circuit providing functions of pulse height discrimination, monostable trigger multivibrator, and pulse constant step voltage amplifier, diode pumps amplifier, and visual indicator combined in the RC circuits in which the neon is triggered by pulses.

828/62. Mian Mohammad Mukhtar (Pakistan).—Field Service Pulse Generator.

Operated by neon bulb comprising a neon bulb connected in RC circuits without valves transformer as a saw tooth oscillator by changing the integrating capacitors.

1184/62. Mujeeb-Ur-Rehman Alvi (Pakistan).—Fried Sodium chloride (salt), table salt and salt.

Process for the production of refined salt characterized by the fact that the wash water is by dissolving sodium chloride in water, till a saturated solution is obtained, which is filtered to remove soluble matter and chemically treated to remove chlorides and sulphates of magnesium and calcium.

150/63. Shell Internationale Research Maatschappij N.V. (Netherlands).—Novel insecticidal compositions polyhaloalpha-(halo-methylene) benzyl phosphates.

Insecticidal compositions comprising a active ingredient a dialkyl polyhalo-alpha-(halo-methylene) benzyl phosphate and a surface active agent.

318/63. N. V. Philips Gloeilampenfabrieken (Netherlands).—Improvements in or relating to methods of manufacturing semi-conductor devices semi-conductor devices manufactured by

The method comprising depositing semi-conductor material from the gas phase to a semi-conductor body, the properties of material differing from that of body.

2:2|63. Commissariat A L'Energie Atomique (France).—Dimensional inspection bench for parts having cylindrical bodies. 113383.

Dimensional inspection bench for measuring variations between real and actual generator line of a cylindrical body comprising rotary support and measuring head.

3|0|63. Commissariat A L'Energie Atomique (France).—Device for carrying out a chemical reaction and method of preparation of ammonium diuranate employing said device. 113384.

Device for carryout in continuous operation a chemical reaction in liquid phase characterized in that said device comprises a sonic venturitube injector, and means for supplying said injector with gaseous phase under a substantially constant up-stream pressure. The invention also includes a process for preparing ammonium diuranate by applying the said device.

6:2|62. N. V. Philips Gloeilampenfabriken (Holland).—Improvements in or relating to methods of coating a filament for an in-directly-heated cathode with a black-radiating insulating layer, cathodes comprising such a filament and electric discharge tubes provided with such a cathode. 113385.

By first coating the filament with sintered layer of pure alumina and then with a mixture of Alumina and tungsten oxide.

SEALING FEES DUE

Notice is hereby given that patents may now be sealed on the applications referred to below. If it is desired that a patent should be sealed, a request on the prescribed Form No. 8, accompanied by the fee of Rs. 30 should be sent to the Controller of Patents and Designs, The Patent Office, No. 32-1|B, Block. Karachi, the 24th December 1963

No. Cy. 3882/63-SB.—In pursuance of Sub-Regulations (1) and (4) of Regulation 3 and Sub-Regulation (3) of Regulation 4 of the State Bank of Pakistan (Special Instruments) Regulations 1950, it is hereby notified that in order to help the illiterate pilgrims going to Saudi Arabia the State Bank of Pakistan has arranged that in addition to the facility of travellers cheques and Bank Drafts to be issued by authorized dealers State Bank's Pilgrim Notes will also be issued this year as in the past to such Pilgrims who desire to take foreign exchange in this form. The pilgrim notes are in the denominations of Rs. 10 and Rs. 100 and have the following special features:—

2. Design.

(i) **Rs. 10.** The design and numbering of the Rs. 10 pilgrim note is similar to the present Rs. 10 note of the State Bank of Pakistan with the difference that the pilgrim note is printed in light green colour. Design on the front is the Shalimar Gardens

process on water marked paper, the subject of the water-mark being the star and crescent in a waxing position with one security thread. The following inscription is over-printed in black on the front.

"For Haj Pilgrim from Pakistan" at the top.

"For use in Saudi Arabia only" at the bottom.

(ii) **Rs. 100.** The design and numbering of the note is similar to the design of Rs. 100 note of the Government of Pakistan issued by the State Bank of Pakistan with the difference that the pilgrim note is printed in red colour and the signature of the then Finance Minister is in Urdu. The note is printed by the Intaglio process on buff paper with two security line threads running vertically down the type numbering. The following inscription is over-printed on the front.

"For pilgrim from Pakistan" at the top.

"For use in Saudi Arabia and Iraq" at the bottom. The words "and Iraq" in the inscription have been cancelled by rubber stamp.

3. Issuing Banks.

The pilgrim notes will be issued during the Haj season against payment in legal tender currency by the following Authorised Dealers in Pakistan at Karachi and Chittagong:—

1. National Bank of Pakistan	Haj Booths Karachi and Chittagong.
2. Habib Bank Ltd.	Do.
3. United Bank Ltd.	Do.
4. Muslim Commercial Bank Ltd.	Do.
5. Standard Bank Ltd.	Do.
6. Bank of Bahawalpur Ltd.	Karachi (Haj Booth) and Chittagong.
7. Australasia Bank Ltd.	Haj Booth Karachi.
8. Bank of India Ltd.	Karachi.
9. National Commercial Bank Ltd.	Do.
10. Netherlands Trading Society.	Do.
11. Mercantile Bank Ltd.	Karachi & Chittagong.
12. Central Bank of India Ltd.	Karachi.

4. Prescribed quota.

The amount to be issued to Pilgrim shall be on the following scales:—

Minimum for all classes	Rs. 700 per adult.
Maximum for 1st Class by Steamer	Rs. 1700 „ „
Maximum for 2nd Class by Steamer	Rs. 1500 „ „
Maximum for Deck Class by Steamer	Rs. 1100 „ „
Maximum for Air	Rs. 1500 „ „

It has been decided by the Government to permit children of all ages to accompany their parents on Haj. Separate application for a child of any age will have to be filled up. Children between the ages of 3 to 16 years will be entitled to half the quota of foreign exchange fixed for adults. Minimum exchange quota for children entitled to exchange as mentioned above would be Rs. 350 per child.

5. Arrangements at Jeddah for Exchange of Pilgrim Notes.

The pilgrim notes can be exchanged for rials at the prevailing rates at the Offices/Correspondents of the Banks mentioned at para. 3 above, functioning at Jeddah.

The pilgrim notes can be repatriated through any bank from any country against payment in sterling at the State Bank's ready selling rate for sterling. The agencies in Saudi Arabia or in any other country can directly send their holdings of pilgrim notes to any Authorised Dealer in Pakistan and collect sterling at the State Bank's ready selling rate. On receipt of a mail or cable advice Authorised Dealers may sell sterling forward to their correspondents abroad at the State Bank's forward selling rate for the value of Pilgrim Notes actually purchased by them and indicated in the advice. These forward contracts should be valid for delivery up to 3 months or 26th August 1964 whichever is earlier.

6. Procedure for issue of pilgrim notes.

All banks authorised to deal in foreign exchange can accept from intending pilgrims deposits covering passage fare for the class applied for, amount required for purchase of foreign exchange quota, cost of rations if required for consumption in Saudi Arabia, pilgrim pass fees, etc. For such deposits the banks will issue three receipts in duplicate separately for each application as laid down in F. E. Circular No. 69, dated 17th December 1963. Foreign Exchange would be issued to the successful applicants at port towns only by the banks who issue the deposit receipts and banks that do not have a branch at port towns or do not establish Booths in the Haji Camps shall indicate at

the time of their issue the name of some other bank with whom arrangements are made for release of foreign exchange against their deposit receipts. While the deposits can be received by all the offices of the Authorised Dealers, foreign exchange shall be issued only by offices in Port towns of Authorised Dealers who have issued deposit receipts. The authorised Dealers would not make any change for the acceptance of deposits and their remittance to the Port Towns.

Exchange would be issued to successful Haj applicants on surrender of deposit receipts either in the manner prescribed in Chapter XVIII of the Exchange Control Manual or in the form of Haj Notes. The successful Haj applicants would be issued exchange only to the extent of the amount they deposited in advance for the issue of exchange. In other words, a person who has been successful in the ballot can not draw full quota of exchange unless he had deposited in advance funds for purchase of the full quota.

Exchange for Haj would be issued on production of:—

- (i) Valid Pilgrim passes issued for pilgrimage to Saudi Arabia.
- (ii) Deposit receipts for exchange quota issued by banks.
- (iii) Air|Steamer Ticket for destination in Saudi Arabia.
- (iv) Application in form 'H'.

MUHAMMAD GHOUSE MOHIADDIN,
Deputy Governor.

DEPARTMENT OF MARKETING INTELLIGENCE AND AGRICULTURAL STATISTICS

Rawalpindi, the 26th December 1963

"ALL PAKISTAN" SECOND ESTIMATE OF SUGARCANE CROP FOR THE YEAR 1963-64 RELEASED BY THE DEPARTMENT OF MARKETING INTELLIGENCE AND AGRICULTURAL STATISTICS.

No. MI|AS-E(3)|64.—Area.—According to the second estimate, the area under sugarcane crop for the year 1963-64 has been estimated to be 1,529,000 acres as against 1,381,000 acres and 1,630,000 acres recorded in the corresponding and final estimates of 1962-63 respectively. It has registered an increase of 10.7 per cent. over the second estimate, but represents a decrease of 6.2 per cent over the final estimate of the preceding year (1962-63).

In East Pakistan, the area has recorded a general increase throughout the Province as a result of favourable weather conditions at the time of plantation. The provincial increase stands at 8.2 per cent.

In West Pakistan too, a general increase of 11.5 per cent over the corresponding estimate has been observed. The increase is reported to have occurred primarily on account of congenial weather conditions and regular supply of canal water during sowing season. The farmers' keen interest in its cultivation due to attractive prices of Gur and Khandsari prevailing in the Market contributed towards the increase of area under the crop.

Production.—The production of sugarcane (stripped

22,897,000 tons reported in the corresponding and final estimates of the previous year. The production has shown a significant increase of 13.2 per cent when compared with the second estimate but has recorded a decrease of 5.3 per cent over the final estimate of the previous year.

In East Pakistan, an all-round increase has occurred with the exception of Khulna Division and is mainly attributed to corresponding increase in acreage. The condition of the crop was earlier reported fair, but a cyclone swept over certain parts causing a slight damage to the crop.

The production of cane registered a general increase (14.4 per cent) throughout West Pakistan over the corresponding estimate but a decrease of 10.1 per cent over the final estimate of 1962-63. The increase is due to corresponding increase in area, satisfactory weather conditions and adequate water supply during growth period notwithstanding a slight shortage of water supply reported in Lahore, Sialkot and Bahawalpur Districts. A successful control of borer attack may also be considered to have contributed towards the increased production.
